

## The Mill House & Windmill

The mill and farm were part of the Headley Estate until acquired by the Bramham Park Estate around 1900 . The windmill is described in the book [ p.60 ] , and has , in very recent years , become a less obvious village marker , owing to the trees which have been allowed to grow around it. The site was sold by the Park in the 1970 's , since when it has been occupied as a private residence.

Windmill

*Grade II listed*

Tower windmill (disused). Probably C18; altered. Coursed squared magnesian limestone. Circular plan, tapering in the height, raised on a mound with a segmental vaulted passage on the south side leading to a basement doorway (blocked); blocked doorway at (raised) ground-floor level on west side, various blocked square windows at different levels; iron ladder and drainpipe up east side; superstructure missing.
